April 30, 2021

Dear New Hartford Families,

The climate and culture of our schools play an important part in improving student achievement. The schools in New Hartford have developed school climate plans that revolve around strategies that promote and enhance a positive school climate.

Gathering data and feedback is part of the process in developing school climate plans. As we have done in the past, we will be gathering feedback from you, our parents, from our teachers and also from our students. On Monday, May 3, 2021 parents will be receiving an email inviting you to participate in a very short survey. I ask that you follow the link in this email and complete the simple survey.

Students and staff will be asked to participate in their own specific survey at school beginning on May 3, 2021. Administrative and school climate teams will analyze the feedback data from the surveys and develop next year's school climate plan.

All survey responses are confidential. No one will see how you responded to the questions. We thank you for your feedback and time. Please feel free to reach out to Mrs. Shaw, Mrs. Carroll, or me if you have any questions.

Sincerely,

Brian P. Murphy
Superintendent of Schools
